VISHVASYS TECHNOLOGIES  
PRIVATE LIMITED

VISHVASYS TECHNOLOGIES  
PRIVATE LIMITED

## A Deep-Tech Startup

Incubated at the Foundation for Science Innovation  
and Development (FSID), IISc Bangalore

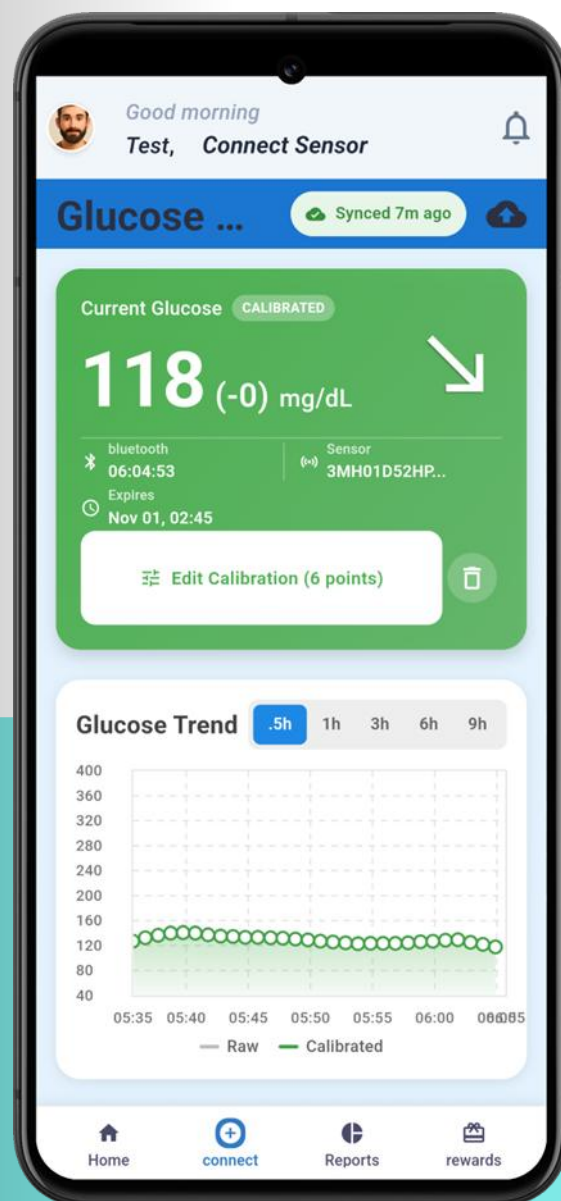

We are Rocket Scientists Providing  
Solutions for Diabetes Management

# Vishvasys Technologies

## AI-powered Personalized Diabetes Care

AI-Powered  
Glucose  
Monitoring

Smart Alerts for  
Glucose Spikes

Track Meals,  
Insulin, &  
Exercise

Digital Health  
Records

Real-Time Cloud  
Sharing

Exercise  
Integration

Navigate Diabetes with  
Confidence, Care and Clarity

## Impact on Health

Accurate Glucose  
Tracking

Track blood glucose levels  
correcting for sensor errors  
and visualize trends.

Leads to reduction in HbA1c  
by up to 1% which can prevent  
neuropathy, nephropathy, etc.

Improved HbA1c

Dietary Tracking

Log meals and track  
carbohydrate intake.

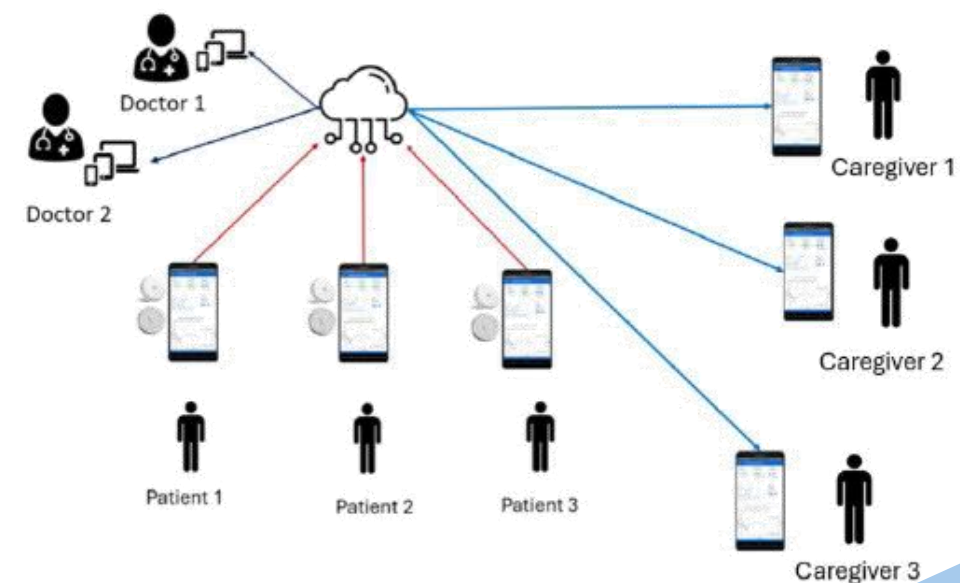

Timely reminders to take  
medications as prescribed.

Medication Reminders

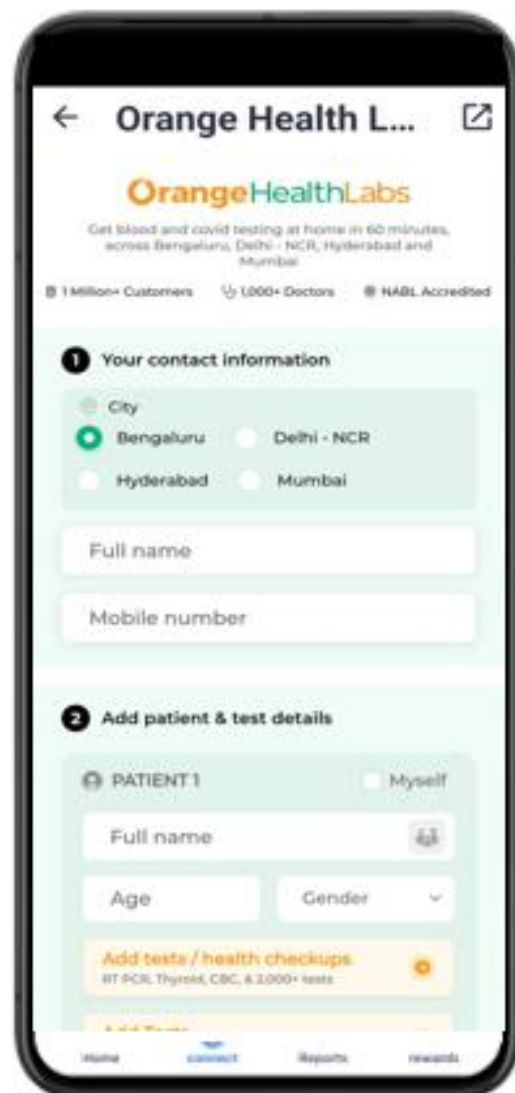

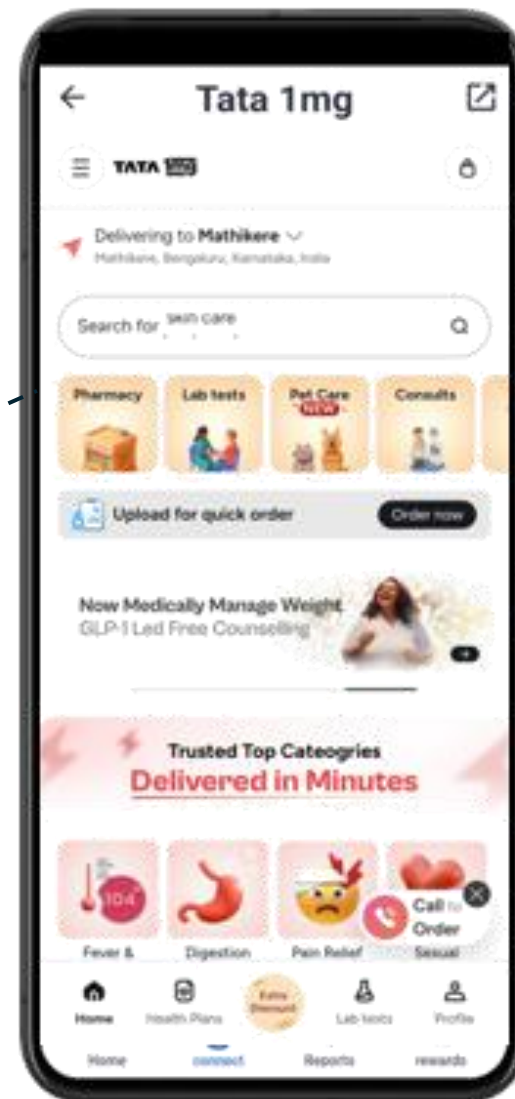

Activity Tracking

Track steps, exercise  
duration and activity  
metrics.

## Order Medication and Blood Tests at Home

Do not include both Doctor/Nutritionist consultations with other features

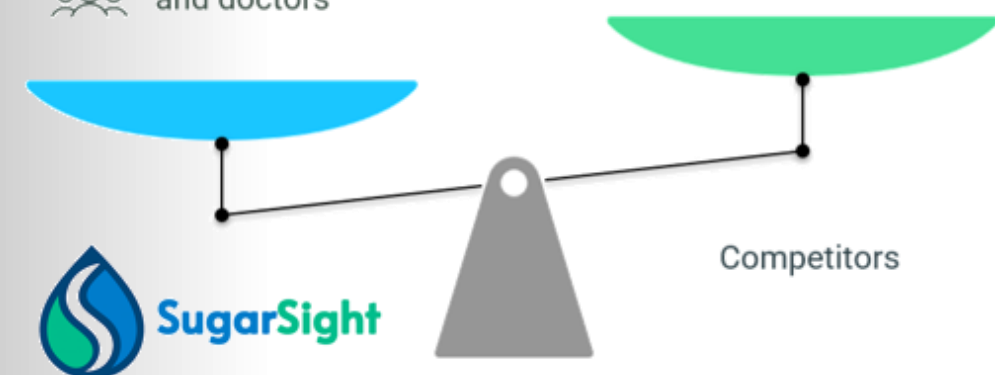

Simplified features

Not many apps have alert system for caregivers/parents

Most apps do not calibrate CGM

## Smart Glucometer Integration

- Integrated with anuPath nano from PathShodh
- Automatically records glucometer values from Bluetooth

## Benefits to Doctors

### Improved Patient Monitoring and Timely Adjustments

Enhances remote data access and adjust medications remotely

### Population Health Management

Data aggregation for analytics and healthcare quality improvement

### Access to more Patients through Video Consults

Facilitates secure remote consultations and in-app prescriptions

### Streamlined Workflow

Automates scheduling, data collection, payments, and reduces administrative burden

### Better Patient Outcomes

Improves blood glucose control and patient satisfaction
